$\lambda \ \lambda \ \lambda$

Are you there ?	[1] Yes.
Do you see rules between questions ?	[2] Yes.
Can we write snippets of *Haskell → Code* ?	[3] Seems so.
Can we write bigger blocks like this one:	[4] Yes indeed.

```haskell
module Main where
putStrLn "Hello, World!"
```

Do we have the test status coloured bullets ?	[5] Let me check: ■ checked ■ checked ■ checked Yes we have.
Good! Then can we go on ?	[6] Let's go!
